REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The Prior art does not teach or fairly suggest the subject matter of these claims. Independent Claims 67 and 72, when considered as a whole, are allowable over the prior art of record. The prior art of record fails to clearly teach or suggest the steps of recalculating a visible region for a node responsive to a user-induced attribute change for the visible region by traversing the tree structure and further recalculating a visible region associated with a parent node of said node. Specifically, there has been no teaching in a similar configuration as set forth in the claims in which the adaptation is made to the parent node of the node which originally received user attribute changes regarding visibility.

Dependent claims 68-71 add further limitations to the allowable subject matter of the respective independent claims, thus are also allowable.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
